

JAIME PARDO

WEB DEVELOPER

ABOUT ME

As a programmer, I can say that I am a jack of all trades but a master of nothing. My mind says that even though every programming language has a different syntax, there is a similar logic. I am eager to learn anything related to my field for better improvement. I also love criticism because it teaches me that there is a better way, always.

SKILLS

PHP	●●●●●●
MySQL	●●●●●●
